**Hospital system** - A hospital and one or more other hospitals or hospital affiliates related by common control or ownership.

## Step 2: Provide information about exemptions or applications

Follow the instructions on the form.

## Step 3: Provide the following about the services and activities for the relevant hospital entity

**Line 9** — Check whether the figures for services and activities you will enter on Lines 11 through 17 are for the hospital year or the average of the previous three fiscal years ending with the hospital year.

**Hospital year** - The fiscal year of the relevant hospital entity, or the fiscal year of one of the hospital owners in the hospital system if the relevant hospital entity is a hospital system with members with different fiscal years, that ends in the year for which the exemption is sought.

Those activities or services may include, but are not limited to, financial or in-kind support to affiliated or unaffiliated hospitals, hospital affiliates, community clinics, or programs that treat low-income or underserved individuals; providing or subsidizing outreach or educational services to low-income or underserved individuals for disease management and prevention; free or subsidized goods, supplies, or services needed by low-income or underserved individuals because of their medical condition; and prenatal or childbirth outreach to low-income or underserved persons. **Attach a list of identifying activities or services provided.**

**Line 13 — Subsidy of state or local governments** — Direct or indirect financial or in-kind subsidies of state or local governments by the Relevant Hospital Entity that pay for or subsidize activities or programs related to health care for low-income or underserved individuals.

**Line 14 — Support for state health care programs for low-income individuals** — At the election of the Hospital Applicant for each applicable year, either

- 10 percent of payments to the Relevant Hospital Entity and any Hospital Affiliate designated by the relevant Hospital Entity (provided that such hospital affiliate's operations provide financial or operational support for or receive financial or operational support from the Relevant Hospital Entity) under Medicaid or other means-tested programs, including, but not limited to, General Assistance, the Covering ALL KIDS Health Insurance Act, and the State Children's Health Insurance Program; or

## General Instructions

The portion of unreimbursed costs of the Relevant Hospital Entity attributable to providing, paying for, or subsidizing goods, activities, or services that relieve the burden of government related to health care for low-income individuals. Examples of these activities or services are

- providing emergency, trauma, burn, neonatal, psychiatric, rehabilitation, or other special services;
- providing medical education; and
- conducting medical research or training of health care professionals.

The portion of those unreimbursed costs attributable to benefiting low-income individuals shall be determined using the ratio calculated

by adding the Relevant Hospital Entity's costs attributable to charity care, Medicaid, other means-tested government programs, disabled Medicare patients under age 65, and dual-eligible Medicare/Medicaid patients and dividing that total by the Relevant Hospital Entity's total costs. Costs for the numerator and denominator shall be determined by multiplying gross charges by the cost to charge ratio taken from the most recently filed Medicare cost report (CMS 2552-10 Worksheet C, Part 1). In the case of emergency services, the ratio shall be calculated using costs (gross charges by the cost to charge ratio taken from the most recently filed Medicare cost report (CMS 2552-10 Worksheet C, Part 1)) of patients treated in the Relevant Hospital Entity's emergency department.

# Instructions for Schedule E

---

## Step 2: Provide the estimated assessed land value

**Line 4 – Total assessed land value** - Determine a square foot average of assessed values of three parcels of land (not including farm land, and excluding the assessed value of the improvements thereon) that are reasonably comparable to the property. Multiply this average by the square foot of land for which the exemption is sought.

## Step 3: Figure the estimated buildings value

**Line 5 – Square footage of building** – Calculate the square footage of the building for which the exemption is sought.

**Line 6 – Marshall & Swift Cost Manual** – Calculate the replacement cost per square foot for Class A Average building found in the most recent edition of the Marshall & Swift Valuation Services Manual, adjusted by any appropriate current cost and local multipliers.

**Line 7 – Total replacement Cost** – Multiply Line 5 by Line 6 to obtain an estimated replacement cost of building.

**Line 8 – Actual Age** – Write the actual age of the building.

**Line 9 – Adjusted Remaining Life** – The useful life of a building is a weighted mean life based on original construction. Hospitals are assumed to have a 40-year life and other types of buildings will use the applicable life from the American Hospital Association publication “Estimated Useful Lives of Depreciable Hospital Assets”. Hospital buildings older than 35 years will have an assumed remaining life of 5 years and hospital buildings newer than 8 years will assume to have a remaining life of 32 years. Apply the same parameter ratios of remaining life to non-hospital buildings.

**Line 10 – Percentage of remaining life** – The adjusted remaining life is divided by the useful life. For

example, a hospital with a remaining life of 28 years is divided by a 40 year useful life to obtain a percentage of 70%.

**Line 11 – Assessment factor** – Write the assessment factor for the county.

**Line 12 – Estimated assessed buildings value** – Multiply Line 7 by Line 10 by Line 11.

## Step 4: Figure the total estimated assessed value

Follow the instructions on the form.

## Step 5: Figure the total estimated property tax
